**“ Jonas Sætervik worked as an assistant at Yokoland 3 days a week autumn 2013. In this period he worked on various types of projects – assisting us on graphic design, layout, typesetting, illustration and photography.”**

**— Aslak Gurholt, Yokoland**

**“ The graphic work of Jonas is vital, energetic and inventive, but also partly intangible and provoking. During the design process he explores and tests ideas for meaning and form, departing from his own interests. The experimental approach leads him to innovative, original graphic results.”**

**— René Put, Gerrit Rietveld Academie**

**“ Jonas is a hardworking designer and puts big passion into his work which has lead to great results. He’s also full of a particular type of humor which has been very much appreciated by the team which he has worked for.”**

**— Kristian Lundquist, Great Works**
